the sources

Market Alerts

WESTERN SOFT VEGETABLES Extreme heat in California continues to affect availability, price and quality of Eggplant, Red Bell Peppers and Cucumbers for the Western half of the country. We recommend using Choice Green Bell Peppers for optimal cost and quality.

POTATOES As the storage crop winds down, **Idaho 80 CT potatoes** and smaller are the best buys, and will continue to be throughout the summer. Avoid **70 CT or larger** where possible. Quality is good across all sizes.

AVOCADOS The supply of product out of Mexico continues to be severely restricted, due to a combination of growing condition and import issues. Product from other sources, including California, is not plentiful enough to offset the Mexican shortage, and pricing continues to be much higher than normal.

APPLES Apples are also a storage crop, and some varieties are running low on small fruit. Granny Smith and Golden Delicious are currently the most impacted, with 88 CT and larger being more available than 100 CT and smaller. Consider using Fujis or Galas as an alternative where smaller sizes are needed.

MELONS Cantaloupes and Honeydew harvesting in California is very light due to last week's extreme heat. Quality is fair to poor, with spotting and scalding reported, and some orders may be shorted. **Watermelons** are approaching peak season and may be a good alternative.

A Peek at Peak Seasons

Locally Grown Products: The local growing season is starting up. Michigan Blueberries, Virginia Corn, New Jersey Peppers, Long Island Lettuces and other products are now available. Ask your distributor for this week's local farms list!

Stone Fruit: It's peak season for all Stone Fruit— Peaches, Nectarines, Plums are all approaching peak season. Supplies will be tight throughout the season. Specialty items such as Pluots, Apricots and Dinosaur Egg Plums are available ask your distributor for recommendations.

Round Tomatoes: All sizes and grades on round tomatoes are good quality and pricing with increasing supply going into July. Roma tomatoes are more expensive than usual, so Rounds are a great alternative this week.

Corn: Corn on the Cob is available in time for 4th of July—great quality and pricing, and locally grown in many regions including New Jersey, Indiana, Long Island and Virginia.

Watermelon: Also in time for 4th of July, Watermelons (seeded and seedless) are at peak season, with locally grown product available in most of the country.

Weather Update

California: Temperatures remain well above normal in the inland regions, with cooler temps along the coast.

PRO*A

Mexico: Cooler temperatures and moderate to heavy rain is expected in Central Mexico, with Hurricane Dora moving to the northwest.

Southeast U.S.: Florida is expected to have seasonal temperatures, thunderstorms and light winds.

Commodities at a Glance

| APPLES | WA, ID and MI are at peak season on certain varieties. Quality is excellent. | 🐨 CELERY | Quality is good, pricing is higher. | TETTUCE LEAF | Quality is good to fair, pricing is good. |
